- **Información sobre el proyecto PREVENT-PCP:**

I am reaching out to you ***looking for organisations to develop a technology to better predict and prevent potential threats*** *in public transport infrastructure.*

The proposed technologies shall offer Public Transport Operators with solutions enhancing security situational awareness through:
1. Timely automatic detection of potentially dangerous unattended items in Public Transport Infrastructure and in public areas in the vicinity;
2. Identification and tracking of perpetrators;
3. Integration/interoperability of the technology in standard crisis management systems and video management systems.

This project is part of an EU-funded project called PREVENT PCP (https://www.prevent-pcp.eu/). The project's objective is to improve the security of public transport through procurement of technological solutions. This will be done through Pre-Commercial Procurement (PCP), with the purpose of ***purchasing R&D services to develop these technological solutions****.*

PREVENT Pre-Commercial Procurement available budget is ***9.33€ Million****.*

PREVENT PCP involves 13 public buyers coming from 6 different EU countries, who will ***validate 2 different prototypes*** *in 4 pilots in France, Spain, Portugal and Italy.*

For more information, you can consult the Prior Information Notice.

Does this sound like an exciting opportunity for you? *Find out how to submit and help finetune the tender specifications at the upcoming* ***Open Market Consultation (OMC) event planned in Marseille, France, on the 19 and 20 January 2022!***

Information webinars will be held in January 2022 :

In Spanish, on January 25th, from 9.30 to 12.00,

You can find more information in the attached document, and you can ***register your attendance by completing this online form****.*

For any enquiry you might have about the OMC please send an email to contact@prevent-pcp.eu.
